About the FUNKYGRAPHIC Collection

Characterised by originality and high fashion impulses, Funky Graphic is an expression used to define ege's latest state-of-the-art collection. A completely new highline express collection reflecting current trends and making it easy to create innovative interiors. Funky Graphic is divided into five overall atmospheres, each representing a number of different designs which can be combined according to individual style. A new colour palette, consisting of 12 new funky colours all complementing one another in new ways, forms the foundation of the entire collection. Whether it being bold colours or muted designs. All designs in the collection are developed on the basis of a graphical retro style, spiced with oblique angles and new ways of seeing things. In other words, Funky Graphic is a trendy, hip and unconventional collection throughout.

Jungle Fever

In the trendy ecological restaurant, an encounter between nature and culture takes place. An encounter staged by modern man in an attempt to invite nature in for a bite of cultural delicacies such as green tea and healthy tapas. The table is set, and in small bowls, nature's own shades of green and brown blends with the red and turquoise patterns of the china.

The atmosphere is dynamic and energetic.

The gardener meets with the architect for lunch and they discuss everything from sustainability to the geometrical shapes and curves of nature.

A feeling of energy, well-being and global care fills the space.

In this universe, culture and nature have merged into a unified whole in the most natural manner.

Purple Haze

The city's new cultural centre is buzzing with life, and from the back row in the intellectual cinema, countless alternative and apocalyptic performances can be experienced.

The air is filled with excitement and mystery when spectators are exposed to everything from occult action dramas to velvety love stories on the silver screen. Here, stories are shaped in front of crowds of masculine and feminine spectators. Stories, which similar to the colours purple and violet, express seriousness and reflection. Profound movies forming a life of their own after the fall of the curtain – even in the contemporary metropolis, where flashing lights and constantly repeating sounds compete to wake the ever-dreaming cosmopolitan.

Colour Spot

From the studio at the 11th floor, the view acts as a true bombardment of inspiring senses. Neon-flashing night clubs and fashionable office buildings tangled with colourful avant-garde theatres and throbbing fitness centres. The city is filled with contrasts. From authentic, cultural history to self-staged drama. Open-mindedness and room for festive colours such as pink and red combined with cool shades of turquoise and beige. It is the charm of the city. Abundance of colours in a pattern of people. A pattern which seen from above resembles brilliantly coloured dots swarming around in a neatly organised system. The metropolis - a multiplied organism with an activity level exceeding any normal pulse rate.

Duo Tone

At the end of the avenue, a hip lounge is playing chill-out rhythms while serving its guests foods from all quarters of the world. It is the place to network, to read the latest fashion magazines or to spot the latest trends. It is the place where new tendencies take form and where creativity blossoms. The place where wildness thrives and where combinations of red and pink suddenly are perceived as funky, not fatal, colour combinations. It is the place where tone-on-tone colours symbolise style rather than unimaginative designs. The atmosphere is daring, yet minimalist. Patterned and courageous. Retro graphical – in a new era. Simply, a lounge in which old and new trends collide and together become the future. An encounter between plus and minus not causing short-circuit.

Fade to Grey

Everywhere, people are in motion. Whether it be on the way to the next business meeting, running to catch the last plane, or moving at a determined pace towards the duty-free shop. On a daily basis, thousands of people pass the international airport. Hurried individuals rushing around in every direction. Individuals trained to regard the buzzing crowd as a mere fading, grey background. A background which does not demand any attention, but still vibrates in the daily life of the individual. It is neither trivial nor dull, it is rather exclusive and powerful. More techno than grey, and more Havana than brown. The ceiling in the international airport is high. Here, Scandinavian design virtues, such as simplicity and functionality, are dominating forces making room for global thoughts.
