ege®

we create more than carpets

A lasting impression

Outstanding hotels around the world highly value the unique design possibilities offered by our sophisticated technology. Since any creative idea can be developed into a unique solution, hotels rely on carpets from ege® to emphasize their individual profile.

Creating an impressive and distinguished profile is important and we believe that a carpet should be as individual as the location it is being made for. Style, comfort and atmosphere should form a synthesis. That is why we created the highline carpet ranges.

Stepping forward

Leading corporations and organizations all over the world highly value the extraordinary design possibilities and performance offered by carpets from ege®.

Because ege® has no minimum quantity demands, it is possible to renovate a single section at a time or to decorate each area to truly stand out. We believe that all rooms should be innovative, without straining the budget.

Get inspired by the many impressive solutions!
